Easily match diverse classroom spaces

Classic conical angled foot design

Nordic classic conical sloping feet are used throughout the Lerad series, which is simple and stable, making it more stable and safe.

Classic round table with sloping legs

Straight leg round table

Small square table

Long table

The stacking design saves classroom storage space and creates a wider activity venue.

The handle-type chair back design is convenient for early childhood educators to lift and pull when storing.

Double insurance reinforcement design

The Lerad series was designed from the beginning to ensure product quality. The quality is excellent, and double guarantees are used in many places in the manufacturing of furniture. Risk-reinforced design to prevent deformation and cracking.

The height of the table legs can be adjusted more freely
